ABOUT US

PLASTIC INJECTION FLOOR

Superhouse Group is a multi-unit and multi-product conglomerate with brand leadership in manufacturing all types of quality products such as safety footwear, leather, leather products and textile garments, Military footwear, military outfits etc. manufacture which are exported all over the world.

We started our homing beam since 1980 when we made a modest beginning with shoe uppers, operating from a small dwelling in Kanpur. Since then, we have taken giant stride and set up several manufacturing units, spread over Kanpur, Unnao, Agra, Noida and Kolkata in India.

Our manufacturing processes are backed by marketing and sourcing offices at Mumbai, Kolkata, Chennai, Bangalore and Noida. We have wholly owned subsidiary companies in UK, USA, Germany, Spain and Ajman. And planned to expend further in China, Italy, Romania & Poland .

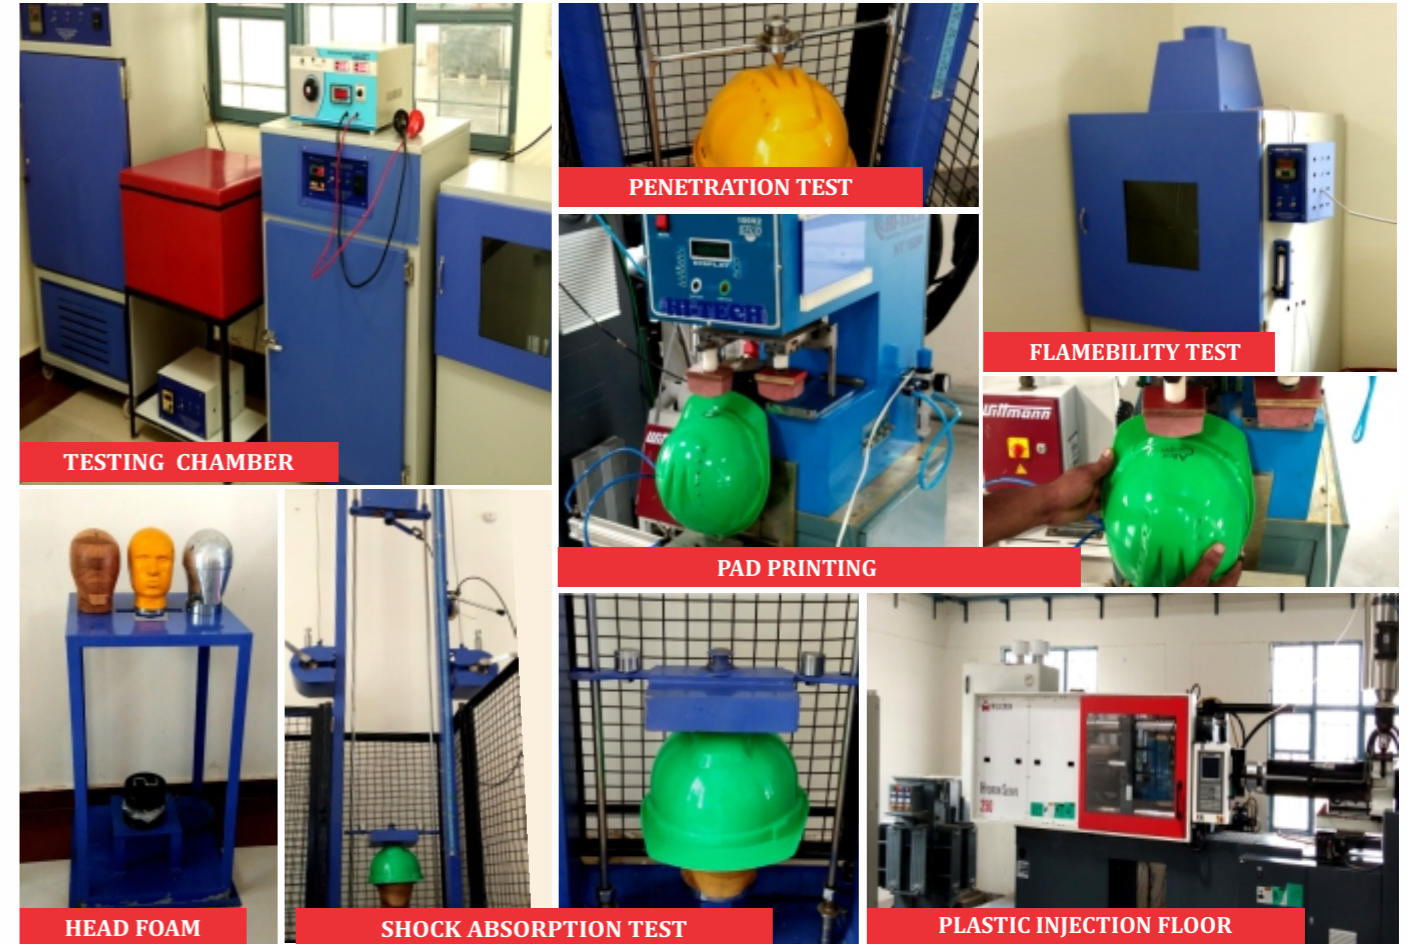

We are committed to supply the best quality products conforming to International Standards. Our 8,000

strong workforce fulfills a 'commitment to excellence', which has earned us international quality certifications of repute including ISO 9001, SA 8000. It's this same commitment, which has made us the leaders!

Item Safety Helmet is one of the PPEs we are manufacturing In-house completely. Safety helmets comply the norms as per IS:2925 and EN397. We are focused to deliver best quality product to our customers.

- Safety helmet manufacturing is fully equipped with latest automatic plastic injection machines which includes consistent quality.
- Efficient Pad printing machine for customized logo printing on Shell.
- Fully equipped Lab for engineering test on safety helmets as per Indian standard IS:2925 and European Standard EN397.
- Warehouse to keep sufficient stock of Raw material.

AESTHETICS AND STYLING

Patented User Centric Helmet Shell Design.

The classic Design of product optimized for not only performance but also ease of use, operation and maintenance. Smooth curves allow easy cleaning.

The form of shell contain deflector on the crown to reduce the impact of falling object from the top of shell.

The design of helmet outer shell is such that it not only performs its expected function of impact deflection and distribution, but also uniquely spread the impact deflection distribution to minimize their effects in the direction of the head form from consideration of vertical or a directional impact situation.

- + Robust Design, Durable shell construction
- + Cooling Vents for improved air circulation and comfort
- + Lateral contours for easy integration of hearing protection
- + Extended Rain trough for around-the-brim protection in hot and/or wet environments
- + Available in a variety of colors
- + Custom imprinting and striping options

Inbuilt Air Vents Option
Facilitates enhanced air flow and better comfort

Branding Panel
Customized 2 colour logo print

Accessory Slot
Standard accessory slot for ear muff, face shield etc.

Integral rain Channel
Prevents falling of water on neck

Branding Panel
Customized 2 colour logo print

Optimum Peak
Provides added protection against sun and rain yet allows unobstructed view

ADJUSTMENT SYSTEMS

Nape Type:

Basic adjustment system is a simple reliable slip ratchet mechanism that makes a very economical solution to a safety helmet sizing and retention needs.

This adjustment system is available in industry standard, with 4-point extra robust Plastic cradle & webbing cradle.

Ratchet Type:

Standard model comes with premium rotary ratchet a precision mechanism for ease of use. Operating is well designed and manufactured with ABS, it enhance the usability with a precise movement and unique pitch of each adjustment step.

Adjustable Nape Strap/ Ratchet

Nape position can be adjust to get the right fit and protection to the wearer

Comfortable Sweatband

- Does not become soggy.
- More comfort to the wearer.
- Easy to replace-maintains comfort and hygiene.

Adjustable Chin Strap

Provides snug fit

4 Point Cradle Suspension

Colour Available:

(Can be customized as per customer requirement)

SH-601
Shell Without Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-622
Shell With Ventilation

- Plastic Cradle, Ratchet adjustable Headband
- Standard Chin strap, Sweat band.

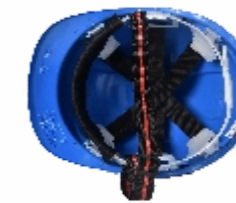

SH-602
Shell With Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-671
Shell Without Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-621
Shell Without Ventilation

- Plastic Cradle, Ratchet adjustable Headband
- Standard Chin strap, Sweat band.

SH-672
Shell With Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-681

Shell Without Ventilation

- Plastic Cradle, Ratchet adjustable Headband
- Standard Chin strap, Sweat band.

SH-691

Shell Without Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-682

Shell With Ventilation

- Plastic Cradle, Ratchet adjustable Headband
- Standard Chin strap, Sweat band.

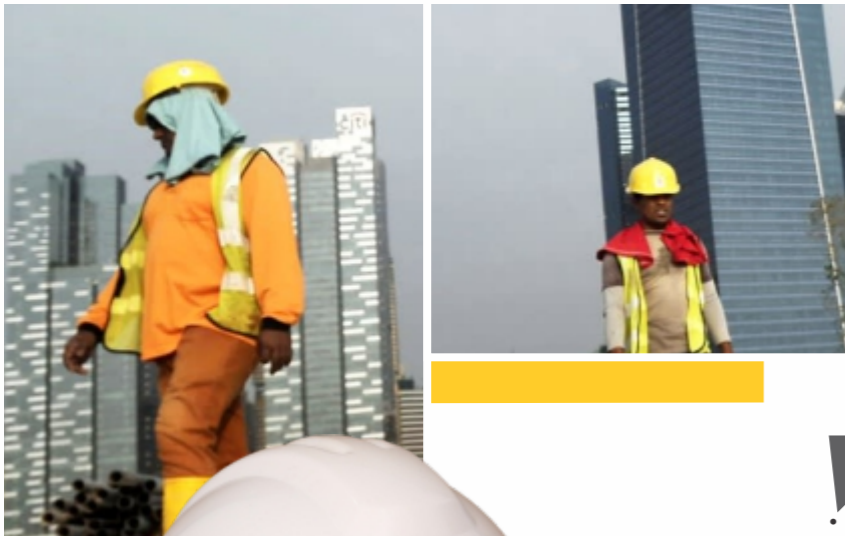

SH-692

Shell With Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-701
Shell Without Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-722
Shell With Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-702
Shell With Ventilation

- Plastic Cradle, Ratchet adjustable Headband
- Standard Chin strap, Sweat band.

SH-741
Shell Without Ventilation

- Plastic Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat Band.

SH-721
Shell Without Ventilation

- Plastic Cradle, Manually adjustable Headband
- Standard Chin strap, Sweat band.

SH-742
Shell With Ventilation

- Webbing Cradle, Manually adjustable Headband.
- Standard Chin strap, Sweat band.

SH-761

Shell Without Ventilation

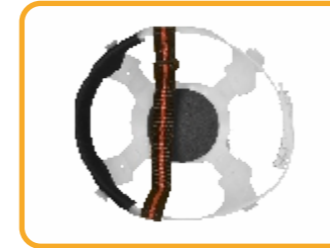

- Webbing Cradle, Ratchet adjustable Headband.
- Standard Chin strap, Sweat band.

SH-762

Shell With Ventilation

- Webbing Cradle, Ratchet adjustable Headband.
- Standard Chin strap, Sweat band.

REFILL SH-601/SH-602

Plastic Cradle, Manually adjustable Headband
Standard Chin strap, Sweat Band.

REFILL SH-621/SH-622

Plastic Cradle, Ratchet adjustable Headband
Standard Chin strap, Sweat band. Chin strap.

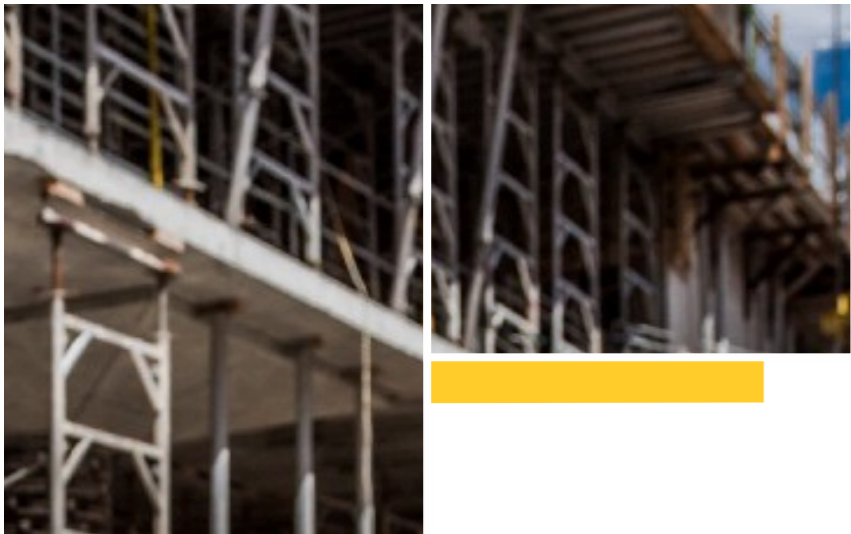

REFILL SH-701/702

With Plastic Cradle, Nape type adjustment
headband, Sweat band, Slandered Chin strap.

REFILL SH-721/722

With Plastic Cradle, Ratchet type adjustment
headband, Sweat band, Slandered Chin strap.

SPECIFICATION AT A GLANCE

Description	Specification	Remark
Standard	IS 2925, EN397	ISI, CE marked
Shell Material	HDPE	PPCP also available, shell thickness 3.5 to 4.0 mm
Cradle Option	Textile suspension (4-point robust system).	Extra cushion can be provided for comfort, on demand
	Plastic molded (4-point robust system).	
Harness Option	With ratchet adjustment	Included sweatband
	With Nape Adjustment	
Color Option	Red, Green, Yellow, White, Blue.	Other color option subject to MOQ
Ventilation Option	Both with and without vent option available	3 or 6 at each side
Chin Strap	Provided as per norms	20 mm PP webbing
Chin Guard	Optional	
Branding	Branding "Allen Cooper" at inner & outer of shell	Customer logo can be print on shell, subject to MOQ
Size Range	540mm to 600mm	
Universal Slot	Universal Slot for accessories	Ear Muff, Welding Shield and Visor
Shell Aesthetic
